Dear Sir,

re: "Youth and Street Gangs"

Your introductory edition of "Youth and Street Gangs" is a realistic compendium of the pernicious events that circumscribe the lives of a certain segment of today's youth and their effects on society as a whole. This apotheosis provides assiduous information facilely assimilable by adolescents everywhere. The illustrations are relevant and appealing. The compendium is a candle of hope for children in precarious state; while, it may serve as a deterrent force for all children everywhere. I trust in its widespread distribution through financial support subsidized in part by all levels of governments with the participation of the Quebec Ministry of Education.

Sincerely,

Prof. Vincent C. Galati
